

# Willamette Valley Oilseed Producers Association

1055 S Pacific Highway West  
Rickreall, OR 97371

[www.wvopa.org](http://www.wvopa.org)

## WVOPA Membership Sept 1, 2017 – Aug 31, 2018

- The WVOPA, founded in 2012, works to promote oilseed production in the Willamette Valley.
- The WVOPA continues to work with OSU, ODA and WVSSA to pin the 500 acres of production allowed by the legislature through 2019.
- Our goals involve educating growers and legislators alike, hosting both grower and legislative field days, and reaching out to local media to help keep the public informed of the benefits of canola.
- The WVOPA has also developed a strong relationship with the US Canola Association, and one of our board members currently sits on the US board.
- We have also partnered with other states in the region (WA, ID, MT) and are working on finalizing a Pacific NW Canola Association.

Your membership supports these efforts & other activities of the association. Please renew today, or consider joining if you have not in the past.
